

AC-32 SURFACE PROTECTANT

Vinyl and Rubber Protector & Rejuvenator, Fragranced with Organic Lime

AC-32 has been developed using advanced ingredients for the protection of surfaces against UV, bacteria, dust and abrasion.

PRODUCT INFORMATION

AC-32 is a silicone emulsion based product specially designed for internal vinyl protection. AC-32 Provides an easy way to clean, protect and shine rubber, vinyl and plastic surfaces. AC-32 efficiently rejuvenates vinyl and rubber surfaces while protecting from sun damage.

AC-32 is often compared with other surface cleaners and treatments for automotive use and consistently is favoured due to the lack of greasy finish, excellent cleaning properties and pleasant organic lime fragrance.

- Protects & shines
- Helps guard against UV damage
- Enhances colour & appearance.
- Use on rubber, vinyl and plastic.
- Protects against discoloration and cracking.
- Keeps your vehicle looking like new.

Applications

Perfect for all interior surfaces including seats, dash, trim as well as external bumpers and trims.

Benefits

AC-32 is very economical and easily applied by atomizing spray.

AC-32 does not stay greasy when dried.

Directions for Use

1. Clean any heavy dirt and soiling from intended surfaces prior to applying AC-32
2. Apply an even film of AC-32 to surface with spray or cloth.
3. Allow to partly dry by leaving for between 15 seconds to 1 minute.
4. Buff to a high gloss.

IMPORTANT: Not suitable for use on floors due to potential slip hazard.
