

## AC-43 WATER BASED DEGREASER

**High performance water based degreaser suited to Automotive and general applications**

AC-43 is ideal for general workshop, engine bay, light industrial degreasing. This is a water based concentrated non solvent degreaser

### PRODUCT INFORMATION

AC-43 is a highly concentrated formula of emulsifiers, wetting agents and surfactants for the removal of oil and dirt from all material types. It is fully bio degradable and quick breaking. AC-43 has a high flash point making it suitable for parts washers and in areas where flammable liquids cannot be used. The benefits of AC-43 are that it will not damage rubber, plastic, automotive paintwork or metals when used as recommended. Additionally, it inhibits ferrous metal corrosion. AC-43 contains no harsh chemicals such as petroleum solvents, kerosene, aromatics, phenols and chlorinated hydrocarbon or other chlorinated solvents.

### DIRECTIONS FOR USE

1. Spray on or brush. Apply liberally to surfaces to be cleaned. Allow to stand for 5 min then rinse.
2. Tank Application. Soak for at least 15 minutes. Then remove, drain and rinse off with water. Mild steel tank construction acceptable.
3. Parts washer. Set up as per manufacturer's instructions.
4. Concrete cleaning. Apply to concrete and allow 2/3 minutes to soak in. Scrub with yard broom and then rinse off with water.

### Recommended dilutions

Heavy soils Use undiluted

Light soils Dilute 1:10

Medium soils Dilute 1:4

Pressure washers Dilute 1:100

**IMPORTANT:** In the presence of unprotected magnesium, magnesium alloys or polished aluminium it is recommended to wet the surfaces with water prior to applying the diluted mix of water and AC-43. Reduce both contact time and concentration of AC-43 for this application.

## AC-43 WATER BASED DEGREASER

High performance water based degreaser suited to Automotive and general applications

AC-43 is ideal for general workshop, engine bay, light industrial degreasing. This is a water based concentrated non solvent degreaser

### TYPICAL PROPERTIES

Appearance	Clear Red Liquid	Boiling Point:	80 - 150°C
Ph:	11.00 - 12.00	Solubility:	Soluble
Specific Gravity:	0.98 - 1.02	DG Class:	Non Dangerous Goods
Odour:	Sweet Odour	Hazardous:	Yes
Flammable:	No	Melting Point:	Not applicable

Non DG

### PRODUCT CODES / QUANTITIES

- A/AC43/1** | 1L Plastic Bottle (Carton of 12)
- A/AC43/5** | 5L Plastic Bottle (Carton of 4)
- A/AC43/20** | 20L Plastic Cube
- A/AC43/200** | 200L Metal Drum
- A/AC43/IBC** | 1000L IBC
