

AC-76 DEWATERING FLUID

Water displacing fluid with corrosion protection

AC-76 has been developed as a versatile lubricant and penetrant. It repels moisture providing excellent corrosion protection to metal surfaces.

PRODUCT INFORMATION

AC-76 is a superior quality lubricant and penetrant designed for use in a wide variety of industries where surface protection and or surface lubrication is required. AC-76 ensures effective penetration of corroded parts to allow easy extraction. AC-76 is designed as a Dewatering Fluid effectively displacing moisture, penetrating and lubricating for an extended period of time for indoor or outdoor applications.

Applications

Use as a dewatering fluid, lubricant and corrosion protectant. Safe for almost every market out there including: Automotive, aviation, commercial, domestic, electrical, engineering, farming & mining, firearms, fishing, manufacturing, marine, motorcycles, sports and transport.

Benefits

- Displaces Moisture
- Effective Penetration on corroded part
- Lubricates and Protects.

Directions for Use

Apply by spraying directly on to area, brushing on or dipping parts into fluid.

TYPICAL PROPERTIES

Appearance:	Clear, Tan Brown Liquid
Specific Gravity:	0.85 g/ml (20C)
Odour:	Mild
Flammable:	Non Flammable
Boiling Point:	Not Determined
Solubility:	Insoluble
Flash Point:	>63°C
DG Class:	Non Dangerous Goods
Hazardous:	Yes

Non DG

PRODUCT CODES / QUANTITIES

- A/AC76/5** | 5L Plastic Bottle (Carton of 4)
- A/AC76/20** | 20L Plastic Cube (48 Cubes per pallet)
- A/AC76/200** | 200L Metal Drum (4 drums per pallet)
- A/AC76/IBC** | 1000L IBC
